PLX-36	CV-36	SC-36	PC-36	36"	36 Feet
PLX-48	N/A	N/A	N/A	48"	48 Feet

Features: Can be mounted directly on a wall or ceiling. Convex mirrors come with our advanced mounting hardware kit for easy installation.

Specifications: Made from shatter resistant acrylic, glass or unbreakable polycarbonate.

Acrylic: Our most popular mirror, shatter resistant, excellent clarity. Made of a lightweight material that offers superb reflection, similar to that of mirrored glass

Glass: Excellent clarity, will not scratch easily. Easy to clean, wet or dry and is unaffected by most cleaning chemicals. Shatter Resistance Glass is enhanced with vinyl glazing tape.

Polycarbonate: Made to be indestructible/unbreakable and is used in high security areas. Extremely lightweight (approximately one-third of the weight of glass), it offers superior optical clarity, making it material of choice for use in areas where glass mirrors would be unsafe or too heavy.

Backing: Indoor models have high gloss white hardboard backing.
